Validation Summary

Total Rows Processed: 150

Valid Rows: 0

Rows with Errors: 150

Detailed Error List

Row 1:

Question "A company needs to stream telemetry at scale. Which AWS service should they choose?" already exists

Row 2:

Question "A new workload must be able to buffer asynchronous messages. Which AWS service is appropriate?" already exists

Row 3:

Question "A new workload must be able to buffer asynchronous messages. Which AWS service is appropriate?" already exists

Row 4:

Question "A new workload must be able to stream telemetry at scale. Which AWS service is appropriate?" already exists

Row 5:

Question "A company needs to route global DNS with latency rules. Which AWS service should they choose?" already exists

Row 6:

Question "A new workload must be able to stream telemetry at scale. Which AWS service is appropriate?" already exists

Row 7:

Question "A company needs to buffer asynchronous messages. Which AWS service should they choose?" already exists

Row 8:

Question "A new workload must be able to buffer asynchronous messages. Which AWS service is appropriate?" already exists

Row 9:

Question "A company needs to run Kafka clusters without admin overhead. Which AWS service should they choose?" already exists

Row 10:

Question "A new workload must be able to stream telemetry at scale. Which AWS service is appropriate?" already exists

Row 11:

Question "A company needs to run Kafka clusters without admin overhead. Which AWS service should they choose?" already exists

Row 12:

Question "A new workload must be able to support shared POSIX storage. Which AWS service is appropriate?" already exists

Row 13:

Question "A company needs to buffer asynchronous messages. Which AWS service should they choose?" already exists

Row 14:

Question "A new workload must be able to buffer asynchronous messages. Which AWS service is appropriate?" already exists

Row 15:

Question "A new workload must be able to provide Windows-native file storage. Which AWS service is appropriate?" already exists

Row 16:

Question "A company needs to provide Windows-native file storage. Which AWS service should they choose?" already exists

Row 17:

Question "A company needs to provide Windows-native file storage. Which AWS service should they choose?" already exists

Row 18:

Question "A company needs to broadcast notifications to many users. Which AWS service should they choose?" already exists

Row 19:

Question "A company needs to provide Windows-native file storage. Which AWS service should they choose?" already exists

Row 20:

Question "A new workload must be able to attach high IOPS block volumes. Which AWS service is appropriate?" already exists

Row 21:

Question "A new workload must be able to broadcast notifications to many users. Which AWS service is appropriate?" already exists

Row 22:

Question "A company needs to run Kafka clusters without admin overhead. Which AWS service should they choose?" already exists

Row 23:

Question "A new workload must be able to broadcast notifications to many users. Which AWS service is appropriate?" already exists

Row 24:

Question "A company needs to route global DNS with latency rules. Which AWS service should they choose?" already exists

Row 25:

Question "A new workload must be able to support shared POSIX storage. Which AWS service is appropriate?" already exists

Row 26:

Question "A company needs to securely expose backend APIs. Which AWS service should they choose?" already exists

Row 27:

Question "A new workload must be able to broadcast notifications to many

users. Which AWS service is appropriate?" already exists

Row 28:

Question "A company needs to run Kafka clusters without admin overhead. Which AWS service should they choose?" already exists

Row 29:

Question "A new workload must be able to broadcast notifications to many users. Which AWS service is appropriate?" already exists

Row 30:

Question "A company needs to broadcast notifications to many users. Which AWS service should they choose?" already exists

Row 31:

Question "A company needs to attach high IOPS block volumes. Which AWS service should they choose?" already exists

Row 32:

Question "A new workload must be able to securely expose backend APIs. Which AWS service is appropriate?" already exists

Row 33:

Question "A new workload must be able to provide Windows-native file storage. Which AWS service is appropriate?" already exists

Row 34:

Question "A new workload must be able to stream telemetry at scale. Which AWS service is appropriate?" already exists

Row 35:

Question "A company needs to provide Windows-native file storage. Which AWS service should they choose?" already exists

Row 36:

Question "A company needs to attach high IOPS block volumes. Which AWS service should they choose?" already exists

Row 37:

Question "A new workload must be able to attach high IOPS block volumes. Which AWS service is appropriate?" already exists

Row 38:

Question "A new workload must be able to run Kafka clusters without admin overhead. Which AWS service is appropriate?" already exists

Row 39:

Question "A new workload must be able to provide Windows-native file storage. Which AWS service is appropriate?" already exists

Row 40:

Question "A company needs to run Kafka clusters without admin overhead. Which AWS service should they choose?" already exists

Row 41:

Question "A new workload must be able to attach high IOPS block volumes. Which AWS service is appropriate?" already exists

Row 42:

Question "A new workload must be able to securely expose backend APIs. Which AWS service is appropriate?" already exists

Row 43:

Question "A company needs to buffer asynchronous messages. Which AWS service should they choose?" already exists

Row 44:

Question "A new workload must be able to route global DNS with latency

rules. Which AWS service is appropriate?" already exists

Row 45:

Question "A company needs to broadcast notifications to many users. Which AWS service should they choose?" already exists

Row 46:

Question "A new workload must be able to broadcast notifications to many users. Which AWS service is appropriate?" already exists

Row 47:

Question "A company needs to run Kafka clusters without admin overhead. Which AWS service should they choose?" already exists

Row 48:

Question "A new workload must be able to buffer asynchronous messages. Which AWS service is appropriate?" already exists

Row 49:

Question "A new workload must be able to buffer asynchronous messages. Which AWS service is appropriate?" already exists

Row 50:

Question "A new workload must be able to broadcast notifications to many users. Which AWS service is appropriate?" already exists

Row 51:

Question "A company needs to attach high IOPS block volumes. Which AWS service should they choose?" already exists

Row 52:

Question "A company needs to stream telemetry at scale. Which AWS service should they choose?" already exists

Row 53:

Question "A company needs to securely expose backend APIs. Which AWS service should they choose?" already exists

Row 54:

Question "A company needs to support shared POSIX storage. Which AWS service should they choose?" already exists

Row 55:

Question "A company needs to broadcast notifications to many users. Which AWS service should they choose?" already exists

Row 56:

Question "A new workload must be able to route global DNS with latency rules. Which AWS service is appropriate?" already exists

Row 57:

Question "A new workload must be able to route global DNS with latency rules. Which AWS service is appropriate?" already exists

Row 58:

Question "A company needs to route global DNS with latency rules. Which AWS service should they choose?" already exists

Row 59:

Question "A new workload must be able to run Kafka clusters without admin overhead. Which AWS service is appropriate?" already exists

Row 60:

Question "A company needs to attach high IOPS block volumes. Which AWS service should they choose?" already exists

Row 61:

Question "A company needs to broadcast notifications to many users. Which

AWS service should they choose?" already exists

Row 62:

Question "A new workload must be able to securely expose backend APIs. Which AWS service is appropriate?" already exists

Row 63:

Question "A new workload must be able to buffer asynchronous messages. Which AWS service is appropriate?" already exists

Row 64:

Question "A new workload must be able to run Kafka clusters without admin overhead. Which AWS service is appropriate?" already exists

Row 65:

Question "A new workload must be able to support shared POSIX storage. Which AWS service is appropriate?" already exists

Row 66:

Question "A company needs to provide Windows-native file storage. Which AWS service should they choose?" already exists

Row 67:

Question "A company needs to route global DNS with latency rules. Which AWS service should they choose?" already exists

Row 68:

Question "A company needs to stream telemetry at scale. Which AWS service should they choose?" already exists

Row 69:

Question "A new workload must be able to stream telemetry at scale. Which AWS service is appropriate?" already exists

Row 70:

Question "A new workload must be able to run Kafka clusters without admin overhead. Which AWS service is appropriate?" already exists

Row 71:

Question "A new workload must be able to stream telemetry at scale. Which AWS service is appropriate?" already exists

Row 72:

Question "A new workload must be able to route global DNS with latency rules. Which AWS service is appropriate?" already exists

Row 73:

Question "A company needs to securely expose backend APIs. Which AWS service should they choose?" already exists

Row 74:

Question "A company needs to provide Windows-native file storage. Which AWS service should they choose?" already exists

Row 75:

Question "A company needs to provide Windows-native file storage. Which AWS service should they choose?" already exists

Row 76:

Question "A company needs to support shared POSIX storage. Which AWS service should they choose?" already exists

Row 77:

Question "A company needs to buffer asynchronous messages. Which AWS service should they choose?" already exists

Row 78:

Question "A new workload must be able to run Kafka clusters without admin

overhead. Which AWS service is appropriate?" already exists

Row 79:

Question "A company needs to stream telemetry at scale. Which AWS service should they choose?" already exists

Row 80:

Question "A new workload must be able to buffer asynchronous messages. Which AWS service is appropriate?" already exists

Row 81:

Question "A new workload must be able to stream telemetry at scale. Which AWS service is appropriate?" already exists

Row 82:

Question "A new workload must be able to buffer asynchronous messages. Which AWS service is appropriate?" already exists

Row 83:

Question "A company needs to securely expose backend APIs. Which AWS service should they choose?" already exists

Row 84:

Question "A new workload must be able to support shared POSIX storage. Which AWS service is appropriate?" already exists

Row 85:

Question "A new workload must be able to stream telemetry at scale. Which AWS service is appropriate?" already exists
